Lottery Promotion:

New players can join your lottery from the minute it's been processed. Here are some ideas while you wait to give you a head start:

Lottery Brand:

If you fancy having a specific brand/logo for your lottery and don't have one already, check out the designs by other lotteries. It can be a simple tweak to your general logo and colour scheme, or something new entirely!

Donor Data:

Have a think about your donor data. If you haven't run a lottery before, you might want to revisit your colder segments when your lottery is launched. After all, it might just be the incentive to give that they need.

Lottery Launch:

An event is a great opportunity to springboard your lottery. Check your fundraising events calendar and make sure your lottery is featured at as many of them as possible!
